Curriculum Vitae of Kalins Banerjee

Demographic Information

Date of Birth: October 29, 1992
Country of Citizenship: India

Office Address: Department of Urology, University of Michigan,
North Campus Research Complex,
2800 Plymouth Rd, Ann Arbor, MI 48109, USA.

Phone: +91-9038540701, +1-717-379-0527
E-mail: kalinsba@umich.edu, email.kalins@gmail.com

Research Interest

My research lies at the intersection of data science, cancer biology, spatial omics, and microbiome studies. I aim to develop data-adaptive statistical and deep learning methods that transform these complex data into clinically meaningful biological insight. I also actively pursue interdisciplinary collaborations that motivate new methodological development while generating insight into diverse biomedical problems.

Academic Experience

- Research Investigator, Research Faculty Track (starting Sept., 2026)
  Division of Urologic Oncology, Department of Urology, University of Michigan, USA.
  Adviser: Professor Evan T. Keller
- Postdoctoral Research Fellow (July, 2025 - Aug., 2026)
  Division of Urologic Oncology, Department of Urology, University of Michigan, USA.
  Adviser: Professor Evan T. Keller
- Postdoctoral Research Fellow (Sept., 2021 - June, 2025)
  Department of Biostatistics, University of Michigan, USA.
  Adviser: Professor Xiang Zhou

Education

- Ph.D. in Biostatistics (2021), Pennsylvania State University, USA.
  Adviser: Professor Xiang Zhan
  Dissertation title: Adaptive Statistical Methods for Microbiome Association Analysis.
- Master of Statistics (2017), Indian Statistical Institute, India.
  Specialization: Applied Statistics.
- Bachelor of Science (2015) with Honours in Statistics, Asutosh College, University of Calcutta, India.

Manuscripts in preparation

1. High definition Spatial Transcriptomic analysis of Breast Cancers with BRCA mutations.
2. The ADAM15/c-Src signaling axis promotes the invasive progression of human Bladder Cancer.
3. Spatial Transcriptomic Profiling of TRIM29-Driven Immune Evasion in Bladder Cancer.
4. Integrative Spatial Metabolomic and Transcriptomic Profiling of Renal Cancer Progression.

Presentations

- "A Robust Computational Framework for Identifying Copy Number Variations in Spatially Resolved Transcriptomics"
  Invited, Innovation Across Disciplines Seminar Series (April, 2026), Department of Mathematics and Statistics, South Dakota State University, USA.
- "Robust Inference of Copy Number Variations in Spatial Transcriptomics"
  Joint Statistical Meetings (JSM) 2025, USA.
- "An adaptive and powerful multivariate test for microbiome association analysis via feature selection"
  - Joint Statistical Meetings (JSM) 2021, USA.
    (**Invited as a paper award winner from the Biometrics section**).
  - International Indian Statistical Association (IISA) conference 2021.
    (**Winner of the Student Paper Competition**).

- "An adaptive test for microbiome association studies via feature selection"
  Eastern North American Region (ENAR) spring meeting 2021, USA.
- "An adaptive multivariate two-sample test with application to microbiome differential abundance analysis"
  - Joint Statistical Meetings (JSM) 2020, USA.
  - International Indian Statistical Association (IISA) conference 2019, India.
    (Invited as a finalist of the Student Paper Competition).

Professional Experience

Division of Biostatistics and Bioinformatics, Pennsylvania State University

- Teaching Assistant for Graduate level courses
  - PHS 523: Multivariate Analysis (Fall 2020, online)
    Enrollment: Ph.D. students in Biostatistics.
  - PHS 522: Multivariate Biostatistics (Summer 2020, online)
    Enrollment: Ph.D., DrPH, MPH, and MD students from various disciplines.
  - PHS 520: Principles of Biostatistics (Fall 2019, online; Fall 2018, in-person)
    Enrollment: Ph.D., DrPH, and MD students from various disciplines.
- Research Assistant (Fall 2017 - Spring 2021)

Service

- Session Chair, Senior Ph.D. Student Research Showcase 2023 & 2024, Department of Biostatistics, University of Michigan.
- Judge, JSM 2022 Paper Award Committee, Biometrics section, American Statistical Association.
- Chair, Contributed Session: "Statistical Methods for Large-scale Omics Data", ENAR 2021.

Reviewing Activities

Nature Biotechnology, Frontiers in Genetics, and mSystems.

Computational Skills

R, Python, and SAS.

Awards/Honors

- *JSM (Joint Statistical Meetings) 2021 Paper Award* from the Biometrics section of American Statistical Association. [Twitter] [Penn State News]
- *Best Student Paper Award in Applied Statistics* at the IISA (International Indian Statistical Association) 2021 conference. [Announcement]
- *Graduate Alumni Society Award* (Penn State College of Medicine, 2020) for outstanding academic and research achievements and contributions to the campus community. [Penn State News]

- *Debesh-Kamal Scholarship* (INR 1 lakh, 2017 - 2018) for the purpose of higher education/research abroad from the Ramakrishna Mission Institute of Culture, Kolkata, India.
- Ranked 2^{nd} in the 3-year Bachelor of Science (B.Sc.) Honours examination (2015), University of Calcutta, India.
  Hasi Ganguly Memorial Prize (Asutosh College, 2014 - 2015) for securing highest marks in the B.Sc. final examination in Statistics Honours.
  Kesab Lal Ganguly Memorial Prize (Asutosh College, 2013 - 2014) for securing the highest marks in B.Sc. Statistics Honours part-II examination.
- Selected as a member of the 5^{th} delegation from India in the *Japan-East Asia Network of Exchange for Students and Youths Programme (JENESYS)* conducted by the Japan International Cooperation Center (June, 2008).
